## ANNA SRI

Hi I'm Dr. Sri and I'm so glad you're here.Thank you for taking a moment to get to know me before your visit!

I graduated with my Doctor of Dental Surgery degree from the University of Missouri Kansas City. Like most new graduates, I started my career about 16 years ago full of excitement and passion for dentistry.

But very early on, I noticed something important. While I loved what I was doing, many of my patients didn't feel the same way. For most people, a dental office wasn't their favorite place to be. That realization changed everything for me.

Ever since, I've committed myself not only to improve my skills as a dentist but also to create an experience that feels different- an experience centered on comfort, kindness, and trust. I've pursued extensive training over the years, always with one goal in mind: help every single patient feel heard, cared for and at ease when they walk through my doors.

**Outside the office**
I'm a mom of 2 teenagers and have been married to my wonderful husband of 22 years. Our son will soon be headed to southern California for College and our daughter is a high school student who keeps me busy with her after school activities.

Some fun facts about me:

- I love cooking and experimenting with new cuisines and restaurants. If you have a favorite dish or restaurant recommendation, I am all ears!
- I love to travel and we take an international trip once a year with my family. I'm happy to share about our food adventures and travels around the world!
- I try to balance it all with quiet moments of meditation.

Dentistry has brought me incredible joy not just because I love what I do, but because I get to meet people like you. I look forward to meeting you and taking care of your oral health.
