ROSEVILLE SMILES

SERVICE CATALOG

Service Name **Dental Implants and Custom Crowns**

## ABOUT DENTAL IMPLANTS AND CUSTOM CROWNS

Dental implants are artificial tooth roots, typically made of titanium, that are surgically placed into the jawbone to support a replacement tooth or bridge. Custom crowns are tooth-shaped caps designed to fit over damaged or restored teeth or implants, providing a natural look, strength, and function.

## THE GOLD STANDARD IN TOOTH REPLACEMENT

Experience the elegance of a complete smile with our premium dental implant solutions. A dental implant is not just a replacement — it's a restoration of beauty, function, and confidence. Each implant is crafted with precision and placed to perfection. This three-part restoration includes:

- The Implant: A biocompatible titanium post placed into the jawbone, mimicking a natural tooth root.
- The Abutment: A discreet connector that ensures stability and support.
- The Crown: A meticulously designed, natural-looking porcelain crown, handcrafted to match your smile.

Our crowns are custom-fabricated by master ceramists to blend seamlessly with your natural teeth — offering both strength and sophistication. Rediscover your smile with timeless elegance. Schedule your private consultation today.
